EXPERIENCE

GreenWeb, Iran — *Frontend Developer*

May 2025 - PRESENT

As a front-end developer at Green Web, I redesigned and optimized sections of the Iran Server website to improve SEO, readability, and marketing performance. I wrote reusable, efficient code for scalability and contributed to launching the user panel with Vue 3.

BarezPaskhsh, Iran — *Frontend Developer*

May 2024 - Jun 2025

Built scalable front-end applications with Next.js, creating reusable components and optimizing UI/UX. Applied SEO and SSR for faster, more discoverable pages, and collaborated with teams to deliver efficient solutions.

Skyroom, Iran — *Frontend Developer*

Jan 2023 - Jun 2024

Developed and optimized the logging and monitoring system of Skyroom, a web streaming platform, to improve error tracking and performance analysis. Rebuilt the customer panel with Vue 3 and TypeScript, collaborating with design and back-end teams to deliver reliable, well-tested code.

Apple Service, Iran — *Frontend Developer*

Dec 2020 - Nov 2023

Developed and optimized the company website's front-end with a strong focus on SEO. Customized PrestaShop using JavaScript, HTML, and CSS to enhance UX, ensure cross-browser responsiveness, and improve search engine visibility.

Taha IT, Iran — *Frontend Developer*

Sep 2021 - Jan 2022

Independently developed and optimized a WordPress-based platform, enhancing performance, SEO, and user experience. Customized themes and plugins using JavaScript, HTML, and CSS, and implemented on-page SEO best practices to improve search engine rankings and organic traffic.
